

Hello Dear friends!

At the moment we are preparing for the recording of our first full-length album that is due this autumn, 2009! During these past 8 months, we've had our first ever EP, "Fleece Is The New Black" up for a free download, and YOU people have downloaded it almost 6.000 times!! This is an amazing amount for a small independent group like us, and we want to thank you for being such amazing and loyal fans!:=)

To all of you people who didn't get the chance to download our EP, we are glad to tell that ALL of the 3-songs are included on the forthcoming album!:) Songs are of course still available for listening at our myspace! Hopefully all of you will stick around and get ready for some more of brand new 15MBTD- songs!!!

Love,

15MBTD
